PREFACE

This catalog contains the completed titles of books listed in the Central Catalog of volunteer produced Braille, large type and recorded textbooks. Commercially produced large type textbooks and supplementary reading materials are included.

If you need a book not listed in the APH regular catalogs of Braille, large type or recordings then check this list for the location of a book and its depository.

The titles are listed alphabetically by subject area. In the case of *Readers* you could also check *Children's Literature* for more supplementary titles.

Under the heading of *Social Sciences* you will find social studies textbooks, sociology, civics, contemporary problems, etc. In this category you should also check titles under *American History* (which includes American Government) and *World History.*

If you have difficulty in deciding subject classification it is suggested that you use *Textbooks in Print,* an annual publication of Bowker & Co., 1180 Avenue of the Americas, New York, New York 10036.
